

# Decarbonization with Industrial Heat Pumps & Boilers

Learn about the latest advancements in industrial energy efficiency, Japan's efforts in achieving carbon neutrality, and create new connections with industry professionals from Japan

**3<sup>rd</sup> June 2025**

**1.30PM – 3.00PM ICT**

**Webinar on Zoom**

## OUR SPEAKERS

**... And Heat pumps and Once-through boilers manufacturers**

\*Speakers may be subject to change.

## AGENDA

Time	Item
1:30 – 1:40	Opening Remarks
	Introduction by NRI Singapore
1:40 – 1:55	Energy situation, the need for and challenges of decarbonisation
1:55 – 2:10	Toward Carbon Neutrality: The Role of Heat Pumps in Energy Transition*
2:10 – 2:25	Case Studies in the Deployment of Heat pumps for Cleaner Thermal Energy*
2:25 – 2:40	Accelerating Industrial Efficiency: Case Studies on Once-through Boiler Adoption*
2:40 – 2:55	Q&A
2:55 – 3:00	Closing

\* : Title can be changed

## WHAT TO EXPECT AT THIS WEBINAR

- **Learn** about the cutting-edge heat pump technologies and how they can be integrated into your operations to reduce carbon emissions and improve energy efficiency.
- **Network** with industry leaders and like-minded professionals committed to sustainability and develop actionable strategies to accelerate energy efficiency efforts.
- **Discover** the benefits of adopting these technologies, including energy savings, cost reduction, and environmental impact through in-depth case studies.
